PROFESSIONAL SUMMARY

Software Developer with hands-on internship experience developing web applications using React, Next.js, Node.js, Express.js, and MongoDB. Experienced in building data-processing interfaces, interactive dashboards, and REST API integrations for business applications. Built full-stack applications including an AI-powered resume analysis platform using the Gemini SDK. Seeking entry-level Software Developer opportunities focused on full-stack web development.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, ShadCN UI, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT, FastAPI

Database: MongoDB, Mongoose, MySQL

State Management: Redux, Context API

AI/LLM: Gemini SDK

Tools: Git, GitHub, VS Code, Postman, Vercel, Netlify

EXPERIENCE

Software Developer Intern — Simtak Solutions

Pune, MH | Jan 2025 – Jan 2026

- Developed client portfolio website using React.js and Next.js with lead generation features, contact forms, blogs, and product/pricing sections.
- Built frontend interface for Shipment Management System — a data processing platform that transforms raw CSV data into structured records. Implemented dynamic field mapping UI, row-wise data validation, and integrated 15+ REST APIs for authentication, shipment management, dashboards, and analytics workflows.
- Developed frontend workflows for CSV processing, validation, and data transformation, reducing manual data preparation and supporting shipment tracking operations.
- Designed 20+ reusable UI components and responsive dashboards using React and ShadCN UI, used across 5+ client projects.
- Collaborated with frontend and backend developers to integrate APIs, refine UI workflows, and deliver features based on project requirements.

PROJECTS

Career Lens – AI Resume Analyzer

Node.js, Express.js, MongoDB, Gemini SDK, REST APIs

- Built an AI-powered resume analysis platform that evaluates resumes against job descriptions using Gemini SDK. Implemented resume parsing, JD-resume matching, ATS scoring, and automated interview question generation.
- Developed full-stack application (frontend + backend) with secure resume upload, standardized storage, and AI-driven insights.

Agrolease – Equipment Rental Platform

React.js, Node.js, Express.js, MongoDB

- Designed and developed a full-stack MERN application for farmers to rent farming equipment to nearby farmers. Features include equipment listing, search functionality, and analytics dashboard for equipment owners.
- Built RESTful APIs for equipment management and implemented JWT-based authentication for secure user access.

Smart Farming – ML-Based Crop & Fertilizer Recommendation

Django REST API, Machine Learning, React.js, Python

- Built web application analyzing soil properties, weather data, and location to recommend optimal crops and fertilizers using Random Forest Classifier, achieving 89.8% validation accuracy.
- Developed interactive React.js frontend with real-time API communication and visualization of recommended crops with confidence scores.

EDUCATION

Master of Computer Applications (MCA) — DYPIMCAM

2023 – 2025 | CGPA: 8.07/10

Bachelor of Science in Computer Science — MTES SGGK College

2020 – 2023 | CGPA: 9.94/10
