

SHREYASH TALELE

Software Developer | MERN Stack | Full-Stack Web Development

Pune, Maharashtra | taleleshreyash44@gmail.com | +91 8379052688 | [LinkedIn](#) | [GitHub](#)

CAREER SUMMARY

Software Developer with 1 year of hands-on experience building and shipping full-stack web applications using JavaScript, Node.js, Express.js, React.js, Next.js, REST APIs, and SQL/NoSQL databases. Delivered production dashboard features (CSV import, dynamic field mapping, search, filtering, pagination) used by real end users during a full-stack internship. Comfortable owning a feature end-to-end — API design, database schema, and UI — and collaborating in Git-based team workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, ShadCN UI

Backend: Node.js, Express.js, REST APIs, Middleware, JWT Authentication

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Postman, Vercel, Render, VS Code

Concepts: React Hooks, Component Architecture, State Management, OOP, SDLC, Debugging

EXPERIENCE

Software Developer Intern | Simtrak Solutions

Jan 2025 – Jan 2026

- Developed and maintained full-stack web application modules using JavaScript, React.js, Next.js, and REST APIs, collaborating directly with backend services for business-critical workflows.
- Integrated REST APIs for authentication, shipment tracking, analytics, and reporting, enabling reliable data flow across the application.
- Built dashboard functionality including search, filtering, pagination, CSV upload, and dynamic field mapping, improving data-processing speed and overall user experience for internal teams.
- Collaborated with developers using Git workflows and code reviews, contributing to debugging, feature enhancements, and iterative code improvements.

PROJECTS

Shipment Management System — Internship Project

Tech Stack: React.js, Next.js, Tailwind CSS, ShadCN UI, REST APIs

- Built reusable React.js and Next.js components following component-based architecture for a production dashboard application.
- Designed responsive dashboards with search, filtering, pagination, CSV upload, and dynamic field mapping to streamline shipment data handling.
- Implemented dynamic data tables and field-mapping logic to support flexible, user-driven data imports.

Agrolease — Full-Stack Rental Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a MERN-based web application for agricultural equipment rental and booking, covering the full user flow from listing to booking.
- Designed REST APIs using Node.js and Express.js for authentication, equipment management, and booking workflows.
- Implemented MongoDB schema design and CRUD operations, integrating frontend and backend for end-to-end functionality.

Smart Farming — Crop & Fertilizer Recommendation App

Tech Stack: React Native, Django REST Framework, Machine Learning

- Built a mobile application delivering ML-driven crop and fertilizer recommendations to end users.
- Integrated Django REST APIs to connect the mobile front end with the recommendation engine.
- Designed responsive, user-friendly interfaces for data input and results display.

EDUCATION

Master of Computer Applications (MCA) | DYPI MCAM, Pune | CGPA: 8.07 / 10

2023 – 2025

Bachelor of Computer Science (BCS) | KBCNMU, Jalgaon | CGPA: 9.94 / 10

2020 – 2023
